The Daylight Store

DO YOU KNOW WHY

We are making such unusual offerings in popular Dress Goods at this time of the season? It is partly because we have more Summer-weight Cloths than we want to carry into the next season and partly because business at this time of the year is a little more quiet than at any other. These low prices enable those who need a Shirt Waist Suit, Skirt or Separate Waist, for Summer or early Fall wear, to get something at a little price which is of unusual worth. The following cloths are some of the season's most popular goods and are of a quality which is very desirable. See them in our south show window.

DRESS GOODS.

A couple of pieces of Fancy Mohairs in blue and brown. The cloth is one that has been very popular this season for shirt waist suits. The weave is of the invisible plaid effect and the goods make up very stylish. Were 50c per yard. Now 39c.

One invisible stripe in a good quality Mohair with a fine luster. Color black. Very good for skirts or shirt waist suits. Comes 36 inches wide. Was 50c per yard. Now 39c.

SCARE OF BLACK RUST.

Only Disturbing Factor in the Northwestern Crop.

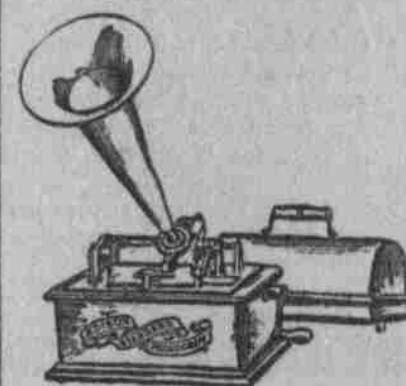

Chicago, Ill., July 25.—The one disturbing factor in the Northwestern crop outlook is the rapid development of the black rust scare, which has started 10 days earlier than last year. Although it has not done serious damage in southern and central Minnesota and South Dakota as yet, it might become serious with the kind of weather suited for its propagation. The rapid spread of the rust news has created some uneasiness over the future prospects of the Northwestern railroad, and also over the prospects for general business.

Outside of the rust scare, there is an outlook for a good crop of other cereals, which, if maintained to harvest, will make more than the average yield and give the railroads a large business for the coming year. Most of the traffic officials continue optimistic, especially those in the sections outside of the rust-affected states.

There is every indication of a large oat crop, also good yields of rye and barley. Prospects for corn are good, the hot weather forcing a rapid growth.

Something New!

FALCONJEL, A RELIABLE JELLY POWDER.

THE Falconjel comes in the following flavors: Chocolate, Coffee, Raspberry, Strawberry, Lemon, Orange, Cherry, Pistachio, Vanilla, Mint (for roast lamb), and Unflavored for wine, calves' foot, etc.

Falconjel takes the place of the old-fashioned jellies made from calves' feet, isinglass, gelatine, etc. This process was tedious and uncertain—too thin, too thick or bad tasting. The Falconjel result is uniform and delicious, as only tested materials of the finest quality are used in its manufacture. Use it according to directions and you will have uniformly good results.

Falconjel is prepared very quickly. Simply turn boiling water on the powder and set it in a cool place.
